Agenda

1) Photoshop Skills to Learn:

Layer styles, gradients, custom gradients, downloading brushes

2) Shoot photos for the Before & After Project – see next slide

3) Work on your Before & After project in Photoshop:

- Make sure you choose 3 different complex tutorials
- Show SIGNIFICANT CHANGE
- Use your own photos whenever possible
- Save all original source photos – you will turn them in!

4) Work on your Portfolio Website Project

Photo Alteration: Before & After Tutorials Project:

- Complete 3 photo alteration tutorials – use links on website
- You will turn in a "Before" photo (original and unaltered) and an "After" file (shows alterations).
- 2 tutorials must use photos you shot. The other 1 may use stock photos.
- Each tutorial should show effort and time – a minimum of 45 minutes of work for each tutorial.
- Demonstrate that you learned something new, complex, and unique.
- Must be school appropriate.
