

# Agenda

- 1) Sketchbook: Shutter Speed
- 2) Exposure Triangle Video - review
- 3) Exposure Techniques Project:  
Shoot photos

Sketchbook:

Read the article entitled “Introduction to Shutter Speed”

- 1) Define Shutter Speed.
- 2) How is shutter speed measured? Give an example of a fast shutter speed and a slow shutter speed.
- 3) At what shutter speed and under is a tripod needed? Why?
- 4) What is “B” or “Bulb” mode? When do you use it? How do you use it?
- 5) To freeze movement what kind of shutter speed will you need?
- 6) To blur movement what kind of shutter speed will you need?
- 7) What is the ‘rule of thumb’ for focal length and shutter speed?
- 8) The Exposure Triangle: if you increase your shutter speed by one stop, what will you need to do to the aperture to maintain correct exposure? Why?
