

## Photoshop Assignments:

Complete all 11 assignments by reviewing the video tutorial on the Class Demos Tab on the class website. For each numbered assignment find a new photograph you would like to use. You may find photos on Google images or [www.unsplash.com](http://www.unsplash.com)

Once you complete an assignment, save the photo to your Google drive and S drive. Then Open a Google Slides Presentation and make a presentation with 11 slides. Place all 11 of your completed assignments on the presentation. 1 assignment per slide.

### 1. Turn 2 different color photos to black and white:

Directions:

1. open the photo in Photoshop
2. go to Image on the top Menu > Adjustments > Black & White. Click OK.
3. Save the photo.

### 2. Make 2 a "Splash of Color Photo":

Directions: See video on Class Demos tab.

3. Create 1 artwork with a Colored Pencil Filter." Choose any landscape photo of your choice. Directions: See video on Class Demos tab.

4. Create 1 artwork with a "Watercolor" Filter. Choose any photo of your choice. Directions: See video on Class Demos tab. Repeat directions from video on #3

5. Create 1 Photo where you Blur the Background. Directions: See video on Class Demos tab.

6. Add transparent text/words over 1 photo.

7. Change the color of a person's eyes.

8. Place a photo inside a shape. The tutorial places a photo of a little girl inside a butterfly. You may do that or choose a different shape.

9. Create a drop shadow with an orange or other piece of fruit.

10. Put a photo inside a word/text. You may use any photo and any word of your choice.

11. Digital Paint over a Photo of your choice.
